The Canadian Press all Endorse and Agree With The Following :

TWELVE SOUND REASONS FOR HOME BUYING

1. Because Loyalty to a Community by its men and women is the first essential to National Patriotism
 2. Because the interests of the Home dealer and the Home Consumer are Mutual—what Hurts one must Hurt the other
 3. Because the Home Business Man pays the lion's share of Assessment Rates and all public welfare Donations—whereas the Outside Dealer contributes Nothing and has Absolutely No Interest in Your Community other than the Cash he takes Out of it
 4. Because Prices of Farm and Town Property and Local Markets go down to Zero where there is No Healthy, Progressive Community Trading
 5. Because the Fundamental Law of Commonwealth Economy is to Spend where You have Earned it.
 6. Because your Home Business Man is Entitled to Your Cash. He stands behind the Goods he sells, While you have No Redress from being "stung" by Outside Dealers.
 7. Because Spending Your Money Away from Home is like Sowing Grain in a Stranger's Field so that he may Reap the Harvest, instead of You
 8. Because when You Drain Your Community by Diverting the Legitimate Channels of Trade, You also Drain it of its young men and young women and, all of Energy and substance for Development
 9. Because the more Money Circulating in a Community the more valuable Property becomes, the Higher are Wages and the Better the General Conditions that prevail.
- "In Unity there is Strength," and United Home Buying Builds Up a Community Bulwark that will Weather the Severest Economic Storms

10. Because it is a Duty You owe to Yourself, to Your Family and to Posterity to Build Up Your Community so that it has a Wholesome Atmosphere and is advancing with the Times, instead of Grafting into the Habits of Sloth, Ruin and Decay
11. Because You must Spend in Advance to the Big City Dealers and You have No Opportunity to Inspect the Goods. Apart from the Hundred and One Good Sound Reasons for Home Buying it never Pays To buy a pig in a bag or "A suit of clothes in the dark"
12. Because continued patronage of the Big City concerns or Catalogue concerns is a Short-sighted, Unprogressive, and in the Long run an Economically Suicidal Practice

Building Up a Prosperous Community

Not so long ago the Manufacturers of Canada spent in the neighborhood of a Million Dollars in Publicity they preached "Buy Made-in-Canada Goods" over the length and breadth of the Dominion

How many Dollars have been spent in the procurement of Buy-In-Your-Own-Community? Mightily few!

Yet the two cases are analogous.

Statesmen of all Climes are forever Telling their Peoples that in order to Maintain National Growth and National Prosperity they must Sell more Abroad than They Buy Abroad, to put the matter succinctly

With a Billion Dollar Debt staring Canada in the face today our Financial Experts seek in Every Conceivable manner to Increase Our Exports and at the same time Decrease Our Imports. A Nation, to Prevent Economic Disaster, must be True to

Herself, and THE SAME RULE APPLIES TO THE COMMUNITY WITH EQUAL FORCE

No Community can Survive an Enormous Commercial Leak unless there is as much or more Trade coming in from outside sources to offset the Leak

How much does any Community get Back from the Thousands of Dollars that are Sent Out each Month to the metropolitan Mail-Order Houses or any other Out of Town concerns?

Do such Houses Buy any Farm or other Products produced in the Community? Do they contribute to the Upkeep of any One of the Institutions that are Maintained by the People of the Community?

Do they Help Build rural Roads or Town Streets? Do they Assist in the Building of Our School and Churches?

Do they pay any Business License, Municipal Tax or any Rates whatsoever to throw Back in Every So Small a Measure Interest on Real Money they Extract from the Community?

Do they in any way Help to Bear the Burden that Falls so extensively upon the Home Business Man?

There is Only One Answer to All these questions: THEY DO NOT!

These Concerns are Alive to THEIR OWN interests—Solely. They take Our Money and put it Back into their Business in order to extend their Business and thereby extract still more Money from the Pockets of the People of the Community Without any Economic Return Whatsoever.

Do We Stop to consider that Our Market Town, Village or City would be Twice the Place it is were every Person True to His Community?

Startling and Terrible Revelations Heard at Ottawa

Girls Ensnared By "Dope Ring" Become Addicts

OTTAWA—Canada is Shimmering on the Crest of a Volcano, according to startling facts presented to Hon. Dr. Beland, Minister of Health, by the thirteen members for British Columbia in the House of Commons.

Cool, Calculating Monsters in human form are Piling up Fortunes by selling Morphine, Cocaine, Heroin and Opium. Not only do they sell it to social scoundrels who have used dope for years, but they have a well organized system of Creating Addicts among the Juvenile population. Young girls are lured to a beautiful residence presumably for a Dance. They meet boys of their own age. Some drug addict is among those present, and Dares the innocent "to sniff a little Snow." (Snow is the colloquial term for Cocaine.) Youth readily accepts a challenge—the Boys and Girls sniff, and rather find the exhilarating effect. They repeat the acts a few times, and first thing they know, the market of the Cocaine Seller has been widened.

No drug addict is Physically or Mentally capable of performing any useful occupation and as they all use from Two to Thirty Dollars worth of the Drug a Day, unless they have unlimited means—which is very rare—their men steal or live on the fags earned by some woman addict.

For more than a year a Scientific Investigation into this Dastardly Traffic has been carried on in British Columbia by a Citizens' Committee of which Chris Stephens, a past president of the Board of Trade, is chairman.

Ladner's Daughter Data, to Leon J. Ladner, member for Vancouver South, is due the credit for getting the data which was presented to Dr. Beland. Mr. Ladner,

who is a young Barrister of his city, served on the Vancouver Citizens' Committee which investigated the Drug Traffic. So impressed was he with the trouble it was making on the Morale and Physique of Canadian Manhood and Womanhood that he gathered his twelve British Columbia colleagues and presented his case before them. They decided that regardless of Political party they would go as a unit and plead with the Minister of Health to take steps to have the Criminal Code amended so that any one found Guilty of Selling Drugs would be liable to imprisonment for a period of from Six months to Seven Years.

Mr. Ladner was spokesman when the Deputation laid the Facts before Dr. Beland. Who are the people that are the Victims of this Drug Traffic? Many of them are members of the best Canadian families.

Miss D., age sixteen, is an Addict of Cocaine and Morphine and Victim of Disease. She acquired the Dope habit from a boy about her own age.

Then there was a twenty-year-old girl whose father was a well-to-do business man, she had been educated in private schools. When her father recently came into financial reverse, she obtained a position in Vancouver, and three of her business associates induced her to sniff Cocaine. Her salary wouldn't pay for this so she found other means. She is now dying at her home.

A widow's son aged twenty, was a great help to his mother until he began using Drugs at the age of sixteen. Since that time he has spent his time Stealing and serving jail terms.

Infanticide was the crime of Margaret C. She injected Morphine into her halfbreed Chinese child until it died. She is 28.

Then there is a brilliant young man who won almost every honor possible overseas. He was in one of the famous battalions and his brother held one of the highest honors within the gift of the people. When this man who is only forty, returned from the war, he began using Dope, and later became a Pedlar for the Men

Higher Up. Charles Royal got hold of him, had him take treatment and he was apparently cured. New clothes and a new job were procured for him but the Drug pedlars Never left his trail and he is an Addict again.

A Minister's Daughter

A Minister's daughter is the next pathetic Wreck in the review. She is only twenty-eight and has had a fine education. She is accomplished in music but is a Drug Addict. She is now serving a Jail term.

How are the drugs brought into Canada? They are Smuggled in from China on the big liners. One trick is to drop a barrel filled with Cocaine off the liner near one of those numerous islands that lie between Victoria and Vancouver, and a fast steam launch will dart out of a little bay and pick up the barrel. The late Lieut-Col. Carey, Collector of Customs grew wise to this practice and used to follow the Liners with Airplanes. This annoyed the Men of Drug Ring and the Colonel received all kinds of Threats from Assassination down.

The Big Sellers are so clever that Cities cannot afford to hire the kind of Bureaus that can compete with them. An ordinary detective is no match for these Master Criminals. Chinese detectives cannot be used, for they will be killed or driven out of the country. There was an example of this in Ottawa—the Chinaman who gave the game away was dead in a week.

Mr. Ladner would have all Alarms connected of selling Drugs illegally. Deported at the end of their term of imprisonment Canadian citizens found guilty of the same Crime would have to report regularly to the Police after serving their Sentence.

You can Save Your Own Children from an Appalling Fate that has befallen others through Innocence of the Deadly Dope by telling Your Children "Never to Touch or to be Induced by others to touch Deadly Drugs." Shame, Dishonor and Death follow in their wake

U.F.A. Concert-June 23rd. at Bow Island

Don't Forget The Fertile Plains U. F. A. Concert will be held in Bow Island on Friday June 23rd, in the L.O.O.F. Hall at 8 p.m., given by local talent, Plays, Readings, Vocal and Instrumental Music. Admission: Adults 50c. Children 25c.

NOTICE

The Drought Area Relief Act

The Drought Area Relief Act has been passed to enable persons residing in certain areas of Southern Alberta and their creditors to adjust their accounts, and to prevent the dissipation of the resources of needy residents by a multiplicity of action and other legal proceedings.

Any person who has been resident and actively engaged in farming operations in such drought area for at least one year prior to January 1st, 1922, and is still resident and engaged in farming can come within the provisions of the Act.

The duty of the Commissioner is to endeavor to adjust matters between residents in the said area, and their creditors so as to provide for the satisfaction of just claims.

Any resident farmer within the drought relief area, or any creditor of such resident farmer, can apply to the Commissioner for an enquiry into an adjustment of his affairs.

It is recommended that applications be forwarded at once, as if there is any delay the detail work necessary in the adjustment of each account cannot be completed in time after the crop is harvested.

Any resident farmer, or creditor, failing to make application before August 15th, next does so at his own risk as it may not be possible to get the necessary help and complete enquiries after that date.

Applications for such relief, and to come under the provisions of the Act, should be made at once, in writing to the Commissioner, Drought Area Relief Act, 320 Lougheed Building, Calgary, so that steps can be taken to make the necessary inquiry.

For further particulars apply to E. J. FREEMAN, Commissioner, Calgary

Railway News

Quebec—Probably the most fragile and interesting assignment yet given into the keeping of the Dominion Express Company is one which will come shortly on a Canadian Pacific Steamship freighter from London.

The baby kangaroos are to be passengers on the ship and will bring the New Zealanders on their long journey from the London Zoo to Toronto which is their ultimate destination.

The lay passengers are coming over the London Zoo authorities who are indebted to Toronto last season for the addition of two very young Canadian beavers to their collection. The kangaroos will be accompanied by a special attendant, who will strive to do his best for the little tots and land them in good condition.

Port Arthur.—The International Union of Hungry Hoboes, in so far as its membership affects Port Arthur and Port William will appear a deplorable in its ranks this summer. At Newmarket, the station east of Port Arthur, there are located a couple of plain clothes police who are gathering the hobos into the long arms of the law. The officers make a regular sweep right at the end of the road into Port Arthur, when a party of nine arrived on Number One to keep the others company.

When a "bump" or one which will be "bumped" off the jail. When a "bump" or one which will be "bumped" off the jail. When a "bump" or one which will be "bumped" off the jail.

The damage is estimated at about \$400 or \$500 which is a considerable loss to the city of Chicago.

The Review joins in sympathy with their many friends in the loss they sustained through this fire.

The U. E. A. held their Picnic at Mrs. Paul Geldreich's place last Friday which was a great success, a large crowd attending and a splendid time was spent by all. The baseball game was won by Port Mille, Mr. McDaniel gave a speech in the afternoon (he is the director for the Medicine Hat) there were races and sports of all kinds and many prizes were won. Mrs. Geldreich served an excellent supper to all who had not brought their own. After which a concert was put on consisting of a play, splendid readings, instrumental and vocal music all of which was highly appreciated, this being followed by a dance in the large barn which was packed, an excellent lunch was served to all and everyone voted it a success both enjoyably and financially.

General business in the west is improving, the confidence is returning, a return of confidence since the war has been down, but the market has been, not a marked, but a very gradual recovery.

British Columbia is rapidly recovering. Although the domestic market for timber is not so normal, the increase in export to foreign countries is enormous. The mining industry is going full blast. Smelters are operating every day. The low price of copper, more than the million bushels of wheat were shipped from Victoria during the month of May. Three hundred tons went to Great Britain, and the balance was shipped to the Orient.

Montreal.—The new C.P.R. steamship "Empress of Australia" sailed on her first voyage from Greenock, Scotland, where she was built, for Vancouver via the Panama Canal, on Friday, June 16.

The new steamship of 21,400 gross tons, 500 feet in length, 72 feet in breadth, and 41.6 feet depth. She was ordered before the war broke out and was the builders' hands when hostilities commenced. Since the conclusion of the war she has been converted into an oil-burner. Her equipment and standard are similar to the equipment and standard of the "Empress of Scotland". She is scheduled to arrive at Vancouver about July 10, and will leave on her first return voyage on the 27th.

Samuel Robinson, R.N.R., former commander of the "Empress of Russia," has been given command of the new ship.

Mr. W. N. Tilley has been appointed a director of the Canadian Pacific Railway, a position created by the death of Sir John G. McCreery. Mr. Tilley has been actively engaged in railway legal work since 1907, immediately to appear before the Privy Council as an agent for the Canadian Government in the Grand Trunk Award case. Mr. Tilley was born in Bowmarville, Ontario in 1866, and called to the Bar in 1891.

Miss Ellen Neil, who has been attending home school at Calgary is returning today to Calgary to spend the holidays with her parents here, she will be accompanied by a little boy of that city.

Mr. and Mrs. S. Bull and son Arthur were visiting in Bow Island on Monday last whilst waiting for the train to Lethbridge, Mr. Bull returned to Mabel in the afternoon after seeing his wife and son on the train.

Mr. O. Gibson was a Bow Island visitor last Tuesday.

Maleb News

Sunday June 11th. was U. F. A. Sunday at Haig School. The Rev. Mr. Mackin gave a very pleasing address, the musical numbers were solo by Pippard, Mrs. Otto Gibson and Mrs. Howden; quartet by Mr. and Mrs. Pippard and a quartet by Mrs. Pippard. Mr. Howden, Mr. Pippard and Mr. Howden there was a very large attendance and all enjoyed the service.

Mrs. Hinning, Mrs. Tweedle and Mrs. Howden visited at the home of Mrs. Smale last Wednesday.

Early Tuesday morning about 3 a.m. a fire of unknown origin completely destroyed one of Mr. M.L. Bowen's granaries, the granary had been used for storing hens in, and a number of chickens and turkeys were already hatched out and there were still some more to come off, unfortunately all were burnt, along with other stuff which had been stored there, a grain tank and wagon standing at the side of the granary were also burned. There was no wind blowing at the time, which saved the house, barn and other buildings from being destroyed.

The damage is estimated at about \$400 or \$500 which is a considerable loss to the city of Chicago.

The Review joins in sympathy with their many friends in the loss they sustained through this fire.

WINNIFRED NEWS

From Our Own Correspondent

Mr. Grang was a visitor out this week last week looking up the happenings and really it needs looking after, most of the farmers around here are burning their weeds and putting out bait.

Robert Smith an old resident of Winnifred but now connected with the Crystal Creamery at Medicine Hat was a visitor in Winnifred last Monday and did some soliciting for the company, we were glad to see him.

Mr. Clinton Harrington is the first in the neighborhood to cut rye, he is cutting it for feed and has a large field and a good crop.

Mr. C. F. Henry returned last Tuesday from St. Paul where he had been on business which he says proved very successful.

See Swensonson for Nose Guards at Attractive Prices

John Eli of Grassy Lake was a visitor to town on Wednesday last.

Mr. Roy Lindvall of Burdett left last Thursday for Magrath and will spend the week up there.

Mr. Earl Bradner of Vancouver, B.C. left last Thursday, after visiting his father home, Mr. Bradner for about a week.

Mr. Nicol is relieving at the Union Bank for a while.

Mr. A. Hoaglin and son Oliver are expecting to leave for the coast shortly to spend the summer months.

Percy Hart of Whistler is visiting his aunt Mrs. A.E. Adair for a time.

The Taber Baseball team played a game on the local diamond with our team last Tuesday the score was 10 to 7 in favour of Taber. The game was well attended. A dance was put on in the evening, which was much enjoyed.

Mrs. E. Thompson has as her guest for the week end Mrs. Lynn of Mabel.

Don't forget the Auction Sale of Household Furniture to be held at J.H. Ware's residence on the 28th. June.

D.M. Garrison, Auctioneer.

Rev. Mr. Danielson who has been attending the convention of the Lutheran Church in St. Paul returned home yesterday Thursday.

The U.F.A. held their meeting in the L.O.O.F. Hall last Saturday evening which was followed by a dance.

And on Sunday the farmers held their annual Sunday Service which was well attended, a very nice service was held in the L.O.O.F. Hall and everyone thoroughly enjoyed it.

All Saint's Church Services will be held on Sunday June 25th.

Morning Service 11 a.m. Evening Service 7:30 p.m. Everybody Welcome

Mr. and Mrs. Hobt. Robertson left for Vancouver last Wednesday morning by way of the Arrowhead Express.

During the "Forty Hour Devotion" at the Catholic Church this week Rev. Father McCoy is being assisted by Rev. Father Fitzpatrick of Medicine Hat. Rev. Father Murphy of Taber and Rev. Father Hermis of Lethbridge.

Mrs. Bull of Mabel and Mrs. Geo. Caldwell of Bow Island are attending a course of Lectures for Wives of Returned Soldiers at Lethbridge this week.

The Wheeler Bros. Circus was in town on Tuesday, the show was good clean shows and quite a number of people gathered, but not so many as might have been, owing to a very threatening storm which blew up in the evening, which however passed over again.

We were sorry to hear of the accident that happened to Mr. Ingulby's mother Mrs. Yeomer, who broke her hip last week, she is now getting along nicely.

Bow Island News

Dr. J. Zimmerman the popular Dentist from Taber, was in Bow Island Tuesday, doing Dental work to an ever increasing and satisfied clientele.

The following meeting at the home of Mr. W. Proudfoot and his mother on Sunday the 11th. Mrs. Alex Chisholm and mother, Mr. and John Chisholm and family and Mrs. McLean of Winnifred, also Mr. and Mrs. Lansdale and son, Mrs. D. Byam and Mrs. A. Mack.

Fur Farming Supplements Nature's Efforts in Filling the World's Demand for Pelts

A LIKELY BUNCH OF SILVER BLACK FOX PUPS BORN AND RAISED IN CAPTIVITY

Conservation and propagation are the slogan of those interested in the fur industry of Canada. With-out conservation, which means wise laws for the protection of fur-bearing animals and strict enforcement of those laws, these animals would soon be exterminated. Even with conservation of the best sort, wild animals cannot be protected from starvation in bad years, nor from the ravages inflicted by larger carnivores, so man has turned to the domestic propagation of many fur-bearers.

several breeders were engaged there in the business of raising silver black foxes, but they started with great secrecy their methods of handling and breeding the foxes and of marketing the pelts. In 1910 the industry experienced a wide development and fabulous prices were paid for breeding stock. Fox ranches are to be found all over Canada to-day, but Prince Edward Island continues to lead. In 1920 this province exported about 1,000 foxes of a value of about \$200,000 and 2,500 pelts that fetched \$75,000.

The fox breeding industry is, of course, the biggest money producer. The little maritime province of Prince Edward Island was the birth-place of this enterprise. In 1920

AN EXPENSIVE BUSINESS OF FOX AND SKUNK PELTS FROM THE DOMESTIC RACCOON, MARTIN, FISHER AND SKUNKS. If they are provided with sufficient land on which they can live as in their wild state, and are supplied with food when the weather or unusual conditions demand it, they will thrive and multiply and yield the farmer rich returns.

Each year sees more and more Canadian farmers setting apart a section of their holdings for the raising of fur-bearing animals. Where wild animals are caught and used for foundation stock, the cost of starting a fur ranch is very small. To show the beauty of Canada's fur a winter fashion show was carried out on Dufferin Terrace, Quebec, this winter. Messrs. Hest, Redfern & Co., furriers to H. M. the King, co-operating with the Canadian Pacific Railway, displayed hundreds of thousands of dollars in valuable garments. These were shown to advantage on pretty blondes and brunettes before the movie men and the visitors at the Ancient Capital. One coat alone was valued at \$15,000.

all arrears of taxes imposed in
1921 in respect of any parcel of
land situated within this Municipality
are not paid on or before the first day of July next
such land will be dealt with
under the Provisions of the
TAX RECOVERY ACT, 1922,
with a view to obtaining cer-
tificate of title in the name
of the Municipality in respect
of such parcel.

F. A. Lumbard, Sec. Treas.
Village of Burdett

Crop Report

Dry conditions prevail over the
major portion of the province, and the
need of rain is urgent, but generally
speaking the condition of the crops in
Alberta is fairly satisfactory at the
present date.

Southern areas--Good growing
conditions prevail from Calgary south
to Lethbridge and to the boundary
and westward, where precipitation
has been reasonably heavy. Rye is
30 in. high, Spring Wheat shows a
vigorous growth of from 5 to 7 inches
high. Alfalfa will be ready to cut
within the next ten days. Consider-
able summerfallow is being done.
Grasshoppers are very numerous and
active, but are being checked in many
localities by effective work with bait,
but more intensive work needs to be
done if all districts are to be free of
this pest.

The Silk Worm and His Product

JAPAN has a monopoly of the silk
industry of the Orient. The Jap-
anese have achieved this triumph
the result of an early appreciation of
the value of organization and stan-
dardizing, and by reason of their skill
in perfecting a raw silk adapted to
higher American machines. Silk
is the chief Japanese export.

The silk worm, therefore, is the ap-
proach and pride of the Japanese
people, and all thought and care is de-
voted to making his surroundings
such as will conduce to his comfort,
health, and happiness. This is no
slight task. At least 4,000 years of
breeding for silk alone has culled out
the silk worm's task of perfecting
his cocoon.

Rearing becomes a full-grown busi-
ness of life, the spinning of the co-
coon and eight to twelve hundred con-
tinuous yards of silken thread. This
takes three or four days, and in most
cases, his life shortly afterwards ends
in hot water, as he must be expected
to make as early showing a production
for bright light. The hot water can-
cels the silk farmer to easily unwind
the cocoon into a skein of glossy,
vibrant colored, raw silk all ready for
the mills.

A few of his relations are picked
out to carry on the good work, but
even for these life has few joys. It
is a long sleep of several months, an
emerging from the cocoon as a winged
creature that cannot fly, and the im-
mediate setting about the business of
laying another five or six hundred tiny
eggs. When that supreme task is com-
pleted the little life goes out, prob-
ably the first of a world in which most
of the fun has to be got out of eating.

But that life is never to be seen and
it is first few weeks of life are swift.
There are a dozen processes of wind-
ing, reeling, weaving and coloring,
though which it must go, and the
few that thus proceed to the market
the better. A train load of silk repre-
